constructed to this city by the Norfolk and Western, in conjunction with the Atlantic Coast Line, was to become part of another great trunk line from the grain fields and provision markets of the West to the sea coast.

The work of grading the Winston-Salem Southbound is progressing well. Some of the contractors have almost finished their work, and the latest report is that the contracts for the iron will be let at an early day and that part of the work pushed to completion. Those who should know insist that trains will run through over the new line before winter. In the meantime the Atlantic Coast Line is practically rebuilding their line from here to Charleston, getting ready for the new through trains.

"I am a man seventy years old. My hands were very sore and cracked open on the insides for over a year with large sores. They would crack cpen and bleed, itch, burn and ache so that I could not sleep and could do but little work. They were so bad that I could not dress myself in the morning. They would bleed and the blood dropped on the floor. I called on two doctors, but they did me no good. I could get nothing to do meany good till I got the Cuticura Soap and Cuticura Ointment. About a year ago my daughter got a cake of Cuticura Soap and cree box of Cuticura Ointment and in one week from the time I began to use them my hands were all healed up and they have not been a mite sore since. I would not be without the Cuticura Remedies.

"They also cured a bad sore on the hand of one of my neighbor's children, and they think very highly of the Cuticura Remedies. John W. Hasty, So. Effingham, N. H., Mar. 5 and Apr. 11, '09.''
